## OBJECTIVE

Diligent Front-End Developer with 2+ years experience building responsive, high-performance web applications using React, JavaScript, HTML5, and CSS3, focused on SEO, optimization, and user-centric innovative solutions.

## EXPERIENCE

### Web Developer - UI

01/2024 – Present | Gurugram

*The Company Check*

**Built and maintained 20+ scalable UI components and full application pages** (search, listings, product details, checkout flow, dashboards, user accounts) with clean architecture, reusable components, and production-level performance; improved UI/UX, React architecture, SEO, and site speed for [TheCompanyCheck.com](https://TheCompanyCheck.com)

**Developed responsive UI, dashboards, and multi-step forms for AllIndiaITR.com** with advanced validation, optimized state management, and improved error handling—boosting completion rates and reducing user drop-offs across key onboarding and filing flows.

**Created fully responsive HTML email templates using SendGrid**, ensuring compatibility across Outlook, Gmail, Yahoo Mail, and mobile clients; implemented fallback styling, bulletproof buttons, inline CSS, and mobile-first layouts for consistent rendering and higher email engagement.

**Implemented structured data, meta tags, canonical URLs, and performance optimizations** (image compression, script optimization, preloading, caching strategies), resulting in a 25% increase in organic traffic, improved keyword rankings, and faster Core Web Vital metrics.

**Ensured pixel-perfect, mobile-first, cross-browser UI** by performing extensive QA, debugging layout inconsistencies, and optimizing for Safari, Firefox, Edge, and Chrome; led code cleanup, modularization, documentation, and deployment readiness with improved folder architecture and stable build pipelines.

## PROJECTS

### The Company Check

Developed core components for search, listings, product pages, and dashboard. Improved SEO, structured data, lazy loading, and code-splitting. Ensured UI consistency, accessibility, and mobile optimization.

### All India ITR

Built multi-step forms, authentication screens, and dashboards. Improved UI flows, validation, and error handling. Ensured cross-browser compatibility and mobile performance.

## SKILLS

### Front-End Development

HTML5, CSS3, JavaScript (ES6+), React (Hooks, Router, Redux/Context API), TypeScript, Bootstrap, jQuery, Responsive Design, Cross-Browser Compatibility, REST APIs, Fetch API, AJAX, SEO Optimization

### Tools, Testing & Automation

Git, GitHub, npm, Vite, Webpack, VS Code, Chrome DevTools, React Testing Library, AI Workflow Automation (ChatGPT)

## EDUCATION & CERTIFICATE

### Udemy React Course

By Hitesh Chaudhary

2025

### Full-Stack Course

2023 | Oxford, New Delhi

### BSc in Mathematics and Statistics

Hemwati Nandan Bahuguna Garhwal University

06/2019 – 06/2022 | Pauri

## PERSONAL DETAILS

### Language

Hindi, English
